Project Costing Management

*“Our cost controls have improved significantly
and our Project Managers are now better informed
to make proactive decisions.”*

Josie Pane, Chief Financial Officer, PearlStreet Limited

PearlStreet Limited

Key personnel, from individual managers and team leaders to the Chief Financial Officer, can access the information they need at the touch of a button.

PRONTO-Xi Project Costing enables your resources to be devoted to the delivery of projects rather than the time consuming intricacies of project administration.

...so easy to work with™

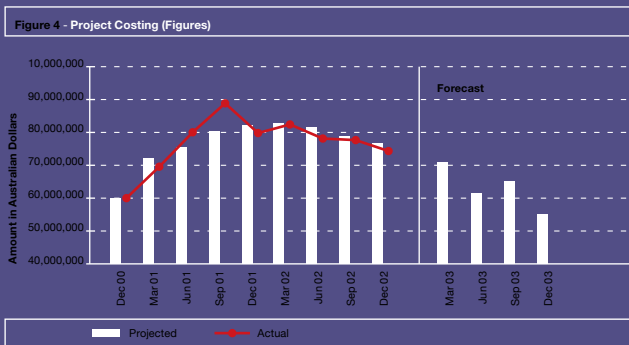

Costing Clarity

The main PRONTO-Xi Project Costing screen provides a clear view of the project status to all stakeholders, complete with key budget and time performance indicators and milestones achieved.

Instant access to detailed information across the full breadth of the project – from human resource issues, contracts and inventory to monitoring equipment, time management and costs – ensures rapid identification of potential bottlenecks as well as improved project flow and cost management.

Profit Recognition

PRONTO-Xi Project Costing complies with accounting standards AASB1009, AAS11 and IAS11. Complete with a full range of project consolidation and deferral techniques, profit can be recognized according to cost method, sales method or actual method. Funds and profit allocation can be taken up progressively according to user-defined schedules.
