ENTERPRISE MANAGEMENT SYSTEM

Supply Chain Management

Inefficient Supply Chain costing you customers? Want maximum throughput at lowest inventory cost? Frustrated by your existing system's lack of collaboration and automation?

PRONTO-Xi Supply Chain™ suite enables you to effectively streamline your supply chain processes both within the walls of your enterprise and beyond to your trading partners.

“The control mechanisms built into the sales order, warehouse scanpack and dispatch processes have allowed us to achieve a KPI of 99.5% in dispatch accuracy.”

Karen Wright, Financial Controller, Bollé Australia

Bollé Australia

In today's competitive environment, your business performance is heavily dependent on the effectiveness of your information systems. The ability to collaborate with your trading partners while managing the operational costs of your business requires accurate, timely and agile access to information.

Immediate access to accurate information, increased visibility of your operation and improved collaboration capabilities answer the challenge to reduce costs and improve customer service, bringing sophistication to your supply chain practices.

...so easy to work with™

PRONTO-Xi Supply Chain encompasses a broad range of products including:

PRONTO-Xi Distribution is a core module that manages all your product, customer and supplier information. Fully integrated with PRONTO-Xi Financials, Distribution provides all the functionality you need for operations management.

PRONTO-Xi RF delivers efficient, flexible and multi-tiered paperless options suitable for your business.

PRONTO-Xi Warehouse Management System (WMS) provides the capability to fully optimize and control your warehouse environment.

PRONTO-Xi ScanPack is a cost effective solution that works to eliminate errors in your picking, packing and dispatch processes. ScanPack is fully compliant with industry standards and will meet your trading partner dispatch requirements.

PRONTO-Xi EasyEDI will extend the boundaries of your enterprise to enable electronic business transactions with your customers and suppliers. EasyEDI supports a range of standard business documents in traditional EDI standards including UN/EDIFACT and ANSI-X12 as well as XML data formats, simplifying your business-to-business communication.

PRONTO-Xi iSupplyGlobal is a fully integrated, industry certified data synchronization solution that allows you to update your trading partners with accurate standardized supply chain data via the GS1 product catalogue repository, GS1net. iSupplyGlobal ensures that your core product and pricing information complies with international and local standards.

BENEFITS:

- + Seamless information flows throughout your enterprise ensure you maintain full control of your operation
- + Comprehensive product suite means you can respond quickly to market demands as they occur
- + Rich functionality across all products provides your company with the ability to adopt sophisticated yet simple to implement supply chain practices
- + Market leading products ensure you stay ahead of your competitors
- + A highly scalable platform to support your ongoing business growth

Whether you are a growing small business or a large multi-national corporation, the scalability and flexibility of PRONTO-Xi Supply Chain will ensure that you have the best solution mix for your requirements.

From basic inventory and order management processes to fully automated warehouse best practices and electronic collaboration with your trading partners, PRONTO-Xi Supply Chain will comprehensively satisfy your rapid response requirements. PRONTO-Xi is a proven, robust supply chain platform that supports hundreds of businesses across a range of industries, worldwide. You can be confident that if your business is running PRONTO-Xi Supply Chain, you will be ... so easy to work with.
